

SAI SURYA SRI HARSHA AKASAM

Software Engineer – API Integration & Web Application Development

+91-7893926569 | saisuryaakasam@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building and integrating REST/JSON APIs across full-stack web and mobile applications. Skilled in API management, request/response testing with Postman, debugging complex data flows, and troubleshooting performance issues in production-facing systems. Comfortable working with relational data layers (MongoDB, SQL fundamentals) and Linux-based environments. Strong record of resolving technical issues quickly, documenting solutions, and collaborating cross-functionally in Agile teams to deliver reliable, scalable software.

CORE SKILLS

- **APIs & Integration:** API Management, REST & JSON web services, Axios, Postman (request/response testing, debugging, mock endpoints)
- **Programming & Backend:** JavaScript (ES6+), TypeScript, Node.js, Express.js — server-side logic and API endpoint development
- **Frontend Architecture:** React.js, React Native, Redux Toolkit, Context API, HTML5, CSS3, Tailwind CSS
- **Data & Databases:** MongoDB, JSON data modeling, database fundamentals (Oracle Database Foundations certified)
- **Tools & Systems:** Linux environments, Git/GitHub version control, Webpack, Vite, Firebase
- **Networking & Troubleshooting:** Networking fundamentals (Cisco Networking certified), debugging, root-cause analysis, performance troubleshooting
- **Process & Collaboration:** Agile/Scrum ceremonies, sprint planning, peer code reviews, technical documentation, cross-team communication

PROFESSIONAL EXPERIENCE

Technical Hub — Frontend / React Native Intern

Jun 2024 – Jul 2024

Surampalem, India

- **API Integration:** Integrated and managed REST APIs via Axios across 10+ reusable components, reducing redundant server requests by 15% through optimized API call patterns.
- **Troubleshooting:** Diagnosed and resolved UI/data-sync issues during active development, applying systematic debugging to trace requests end-to-end.
- **Agile Delivery:** Facilitated daily Agile stand-ups and sprint planning, maintaining 100% alignment on project milestones across the team.
- **Code Quality:** Partnered with senior developers on peer code reviews and Git-based version control, following clean-code standards.

TECHNICAL PROJECTS

Job Align — Mobile Application

Jun 2025

React Native, Express.js, MongoDB, REST API

- **API Development:** Built and consumed REST API endpoints connecting a React Native client to an Express.js/MongoDB backend, supporting 500+ active users.
- **API Testing:** Tested and validated API request/response cycles using Postman prior to release, catching data-format issues before they reached users.
- **Performance:** Improved application performance by 40% through lazy loading and image caching strategies.
- **Recognition:** Selected for Top 20 Project Recognition out of 200+ submissions at Technical Hub.

Infrastructure Tracking 2.0

Nov 2024

React.js, JavaScript, CSS Grid, Responsive Design

- **Real-Time Systems:** Migrated a real-time asset dashboard tracking 1,000+ items, synchronizing state across live data updates.
- **Debugging & Optimization:** Reduced search latency by 50% by implementing debounced search and optimized client-side filtering logic — root-caused via systematic performance profiling.

Infrastructure Tracking 1.0

Oct 2024

HTML5, CSS3, JavaScript (Vanilla)

- **System Design:** Engineered an asset management system with vanilla JavaScript DOM manipulation and local data storage, improving administrative lookup efficiency by 40%.

EDUCATION

Aditya University — B.Tech, Computer Science (AI & ML)

2022 – 2026

Surampalem, AP | CGPA: 7.36/10.0

- Relevant Coursework: Data Structures & Algorithms, DBMS, OOPs, Web Technologies, Software Engineering, AI Fundamentals.

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Database Foundations — relational database concepts and SQL fundamentals
- Cisco Networking — networking protocols and infrastructure fundamentals
- Pearson IT Specialist — JavaScript, HTML/CSS
- 2x Runner-up, AI Master Quiz "Veda" — competed among 500+ participants
